

## Bales Characterization Guidelines: Clear PET Bottles

Version: 1.0 – Date 30/11/2017

These guidelines are not made to replace the existing specifications which have been contractually agreed. They are made to provide an information benchmark to suppliers of any collected waste. The conformity of this characterization will be checked according to agreed quality check procedure. All sorted PET products are advised to be checked upon their recyclability according to the EPBP Design for Recycling Guidelines.
